

EBSN Special Events

The EBSN welcomes and encourages proposals that seek EBSN affiliation and support for Beat related events, workshops, seminars and conference panels. Support might typically include posting information on the EBSN website, use of EBSN social media platforms, and general advice on planning and organizing the event. These would normally be separate from Annual Conferences and Special Conferences, but should similarly support the vision of the EBSN as described in the mission statement.

Possible examples:

- Special events as part of specific Beat celebrations
- One-day specific issue seminars
- Panels at larger international conferences, e.g. ACLA, EAAS, ALA, MLA etc
